HEALTH CARE FOR AMERICA NOW!

Diagnosis: NOW!

A Brave New Films Documentary

Do you feel secure with your private health insurance? Many Americans are not getting the care they need in spite of being insured. Watch this film with your friends and neighbors and take action to stop the insurance industry from putting profits over people.

Robert Greenwald of Brave New Films produced the eye opening documentaries *Iraq for Sale: The War Profiteers*, *Wal-Mart: The High Cost of Low Price*, and *Outfoxed: Rupert Murdoch's War on Journalism*. Now he is taking on Health Care: be the first to see the new documentary *Diagnosis: NOW!*

Join us for the house party to screen the film on Sunday, September 14.
