

HEALTH CARE FOR AMERICA **NOW!**

Democratic Health Reform Legislation Will Save Millions of Dollars for Hospitals in California's 20th Congressional District

Currently, hospitals in the 20th congressional district of California, a district represented by Congressman Jim Costa, do not get paid for millions of dollars worth of care they provide to the uninsured. About 28 percent of the district's residents have no health insurance coverage today.¹ That erodes hospitals' profit margins, making it harder for them to operate. The Democratic health reform legislation pending before Congress² would change this.

Passage of the Democratic proposal means most people will be insured. It also means millions more dollars in revenue and greater stability for hospitals.

- Hospitals that serve the 20th congressional district of California and report uncompensated care listed \$235.8 million in annual uncompensated care costs in recent years.³
 - This level of uncompensated care represents an average of 24.2 percent of net patient service revenue, compared with an average of 5.8 percent for hospitals nationally.⁴
 - The hospitals in recent years had a combined operating margin of 6 percent, compared with the national aggregate total hospital margin of 6.9 percent in 2007.⁵ (Hospitals in this district that have not reported uncompensated care costs are not included in these figures.)
- **Under the House reform bill, the Congressional Budget Office (CBO) projects that when fully implemented the number of uninsured nationwide will fall to between 18 million and 23 million, at least a 54 percent decline, from 50 million without reform.⁶ By one estimate, in the 20th congressional district, the number of uninsured is projected to drop from 184,000 to 39,000.⁷**
 - The reduction in uninsured – and the corresponding increase in paying patients – will improve significantly the financial health of hospitals, particularly those serving the greatest share of the uninsured in the 20th congressional district of California.
 - Assuming conservatively that hospitals will get paid for half of the uncompensated care they now provide,⁸ **hospitals in the 20th congressional district will get paid \$117.9 million more per year, reducing uncompensated care to 12.1 percent of revenues from 24.2 percent today.⁹**
- Statewide in California, 49.1 percent of residents are covered through employer plans, 6.7 percent through the individual market, 16 percent through Medicaid, 8.8 percent through Medicare and 0.8 percent through other public insurance programs. That leaves 18.5 percent of residents uninsured.¹⁰
 - Except for coverage of the uninsured, the distribution of insurance coverage is projected to remain largely unchanged under H.R. 3962.¹¹

Democratic Health Reform Legislation Enhances Hospital Stability In California's 20th Congressional District

Under the health reform plan before Congress, the number of uninsured in the 20th District is projected to plunge to as low as 39,000 from 184,000, a 79 percent decline.¹² As a result, a large portion of uncompensated care costs will be eliminated, as shown in Table 1 below. Based on the conservative assumption that hospitals would be paid for 50 percent of current uncompensated care costs, hospitals throughout the district would gain at least \$117.9 million per year from health reform.

Table 1: Estimated Impact on Hospitals in California's 20th Congressional District From Reduced Uncompensated Care Costs (Under Democratic Health Reform Bill)

Conservative Estimate of a 50 Percent Decline in Uncompensated Care Expenses

Hospital	Net Patient Service Revenue (in millions)	Net Income (in millions)	Uncompensated Care (in millions)	Operating Margin	Reduction in Uncompensated Costs Under Democratic Bill (in millions)
Central Valley General Hospital	\$89.9	\$6.7	\$40.0	7.5%	\$20.0
Coalinga Regional Medical Center	\$24.0	\$3.7	\$7.4	15.5%	\$3.7
Community Regional Medical Center	\$597.4	\$21.7	\$139.6	3.6%	\$69.8
Corcoran District Hospital	\$9.8	\$0.3	\$2.6	2.9%	\$1.3
Delano Regional Medical Center	\$56.2	\$4.6	\$21.6	8.2%	\$10.8
Hanford Community Medical Center	\$121.6	\$7.8	\$21.8	6.4%	\$10.9
Heart Hospital of Bakersfield ⁺	\$77.0	\$13.7	\$2.8	17.9%	\$1.4
TOTAL	\$975.9	\$58.6	\$235.8	6.0%	\$117.9

⁸ Given the projection of a 79% decline in the number of uninsured persons, uncompensated care could decline by even more than the amount cited here.

⁹ The following figures are calculated for only those hospitals within the district that report on uncompensated care. Total current uncompensated care costs and reduction after reform would likely be much higher if all hospitals reported these data.
